

TensorTut

Lesson 0

PYTHON IDE

- Several Python IDE are available
 - Spyder (Anaconda) is used
- Install under Windows:
 - <https://www.continuum.io/downloads>
- Install under Linux:
 - <https://www.continuum.io/downloads>

TENSORFLOW

- For CPU-Only: pip install tensorflow
- For GPU* : pip install tensorflow-gpu
- To access tensorflow directly:
 - <https://www.tensorflow.org/install/>

*only works if a NVIDIA-GPU is accessible, and CUDA is installed. Furthermore, cuDNN accelerates the code as well.
